INTERNSHIP

Edunet Foundation **10 February 2025 - 21 March 2025**

🔗 Live Site | 🖥 GitHub Repository

- During my internship, I developed a Chitrakoot Tourism Website with bilingual language support, tourist information pages, visitor feedback submission, real-time weather integration, and a fully responsive user interface.
- Implemented backend services to manage feedback data and dynamic content, and integrated a Weather API to display live weather updates for tourists; technologies used include HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, EJS, Render Hosting, GitHub.

PROJECTS

Cyber Cafe Management System 🔗 Live Site | 🖥 GitHub Repository

- Designed and developed a Cyber Cafe Management System to manage computer rentals, ticket bookings, online applications, and cyber services.
- Implemented secure login and role-based access for users and administrators, along with dashboards to view, manage, and cancel bookings.
- **Technologies used:** Next.js, Tailwind CSS, MongoDB, Node.js, GitHub, Vercel

Full-Stack Jewellery E-Commerce Web Application 🔗 Live Site | 🖥 GitHub Repository

- Developed a full-stack jewellery e-commerce application covering the complete development lifecycle, including secure authentication, category-based product listings, cart & wishlist, admin order management, and Razorpay payment integration for seamless checkout.
- **Technologies used:** Next.js, Node.js, MongoDB, Tailwind CSS, Razorpay, GitHub, Vercel
